

Oak Bluffs Park Commissioners Minutes

Page 1

July 25, 2011

Members present: Richard Combra Jr & Amy Billings

Others present: Steve Auerbach (OB Resident) Mark Crossland (OB Resident), Barbara Hoyle (OB Resident)

Updates

Commission Billings said that she did get noise complaints about the Apostolic Church clambake so Commissioners will discuss it with them before next year's event.

Public Input

Nashawena Park

Steven Auerbach read a letter signed by abutters of Nashawena Park;

We, the abutters of Nashawena Park living in the block between Uncas Avenue and Wamsutta Avenue, do not object to Steven Auerbach making incremental improvements to landscape of the park within the areas so bounded. Such improvements may include eliminating unwanted leaves from the interiors of the already planted shrubbery, adding additional shrubbery and/or perennials, annual flowering plants, shrub plantings, planting a few additional ornamental trees designed not block any sight lines or to grow beyond proportion of trees already in the park. We understand that the open characters of Nashawena Park will not disturbed just enhanced by these small modifications which will in any case occur very slowly and over a long periods of time.

Commissioner Combra did not have an issue with his plans but any large work should be discussed prior to it being done.

It was decided that Mark Crossland and Steven Auerbach would get together a discuss options and come up with a plan.

Lakeside Park

Barbara Hoyle presented a copy of letter regarding Lakeside Park; she was advised to give it to the Police Department. She also had a copy of the covenant regarding the area. She had concerns about liability issues with people parking in the area.

Commissioners thought that it would be covered under the Town's umbrella insurance policy. They thought that the money donated for parking should be used to make improvements (fixing ruts, etc).

Meeting adjourned.

DISCLAIMER: These minutes are based on a tape recording and as such have a margin of error.
